

Coloured Terminal Block Datasheet

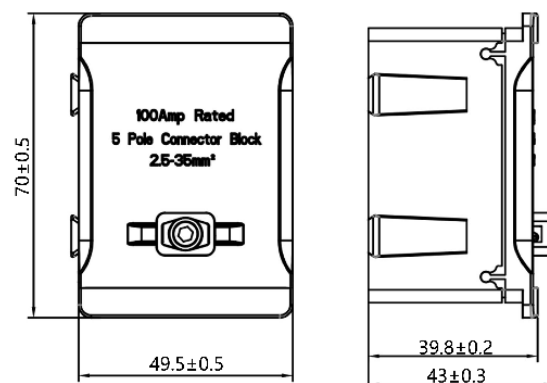

CONSTRUCTION AND FEATURES:

- Material: Brass + Polybutylene Terephthalate (PBT)960C
- 100A 5 way single pole terminal block
- Available colours (Black, Brown, Grey, Blue & Green)
 - Blue: Neutral
 - Brown: L1
 - Black: L2
 - Grey: L3
 - Green: Earth
- Dual screw terminations to ensure secure and reliable connections
- Lockable design, can be locked with wire seal
- Blanking pieces for unused connections

TECHNICAL DATA:

- Terminal cable capacity : 2.5mm² to 35mm²
- Ingress protection IP20
- 960⁰ glow wire tested
- Hexagonal screw type with flat screw driver cut out
- IEC 60998, BS 7657
- 100A 230V AC

DIMENSIONS

DESCRIPTION

The Cudis terminal block is designed in 5 colours and provides a quick and easy solution for making additional terminations safe for any application.

The 5 way terminal block is designed to accommodate cables ranging from 2.5mm² to 35mm².

Its versatile design allows for easy connection of multiple cables, while its lockable feature and sealable lid provide added security.

It comes with blanking pieces, allowing sealing off unused connection points
